*"OSG has managed to reduce our tax liability and to free up my staff and me so we can deal with other strategic issues. "*

*Ricky M. - Senior Vice President  
(Leasing Division)*

### Business Personal Property Tax

One of the most effective ways for a business to increase its corporate value while minimizing its tax liability is to reduce its personal business property taxes on items such as machinery, equipment, fixtures and inventory. OSG provides a "no-risk" examination of your company's business personal property at no charge until we successfully reduce your business personal property tax liability.

### Leased Equipment Tax

Leased equipment is harder to track than fixed property since the tax location can constantly change. At OSG, we have developed unique systems for the special state and local tax requirements of the leasing industry. Our state-of-the-art data center uses advanced technology to accurately and timely process state and local taxes in all 50 states.

### Vehicle Tax

How vehicles are used and accounted for as leased or business personal property is constantly changing and varies from different regions. At OSG, we have long standing relationships with representatives of local and state taxing authorities to better represent your business and tax related issues. Additionally, the complexity of tracking vehicles from one jurisdiction to another and apportioning the tax liability can create a reporting headache and often leads to costly mistakes for companies.

### Sales & Use Tax

Whether it's a large or small organization, when a company operates in multiple state and local taxing jurisdictions, the complexity of its liability increases dramatically. Without daily knowledge, insight and expertise into these changing tax laws, a business will find it difficult to accurately manage its tax liabilities.

### Real Property Tax

The OSG Tax Advantage is the solution for institutional, corporate and other real estate owners who are seeking to maximize the benefits of a focused and concerted property tax management program. Knowledge and understanding of both the substantive issues and the procedural aspects of tax appeals in each jurisdiction often mean the difference between a significant tax reduction and no relief.

### About OSG

OSG is the leading national provider of proven state and local tax solutions. We specialize in delivering integrated multi-state property tax and sales & use tax services. With an emphasis on our customers' needs, OSG uses sophisticated consulting techniques that are backed by state-of-the-art technology and industry expertise to deliver solutions that minimize the burden of state and local taxes, including property taxes and sales & use taxes.
